

INperfektion GmbH is an emerging company in the automation industry. Thanks to our flat hierarchies, we offer self-reliant peer-supported works, both at our office in Wegberg-Wildenrath and at our customers' locations.

We offer exciting projects in various industries and want to grow together.

We are looking for a:

### **Full time Technician / Site Manager (m / f / d)**

#### **Description:**

As a Technician / site manager, you are responsible for the practical implementation of the work at the customer's construction site.

You will not only be in direct contact with the customer for problem solving during the practical phase of a project, but also represent a contact person for the customer during construction site inspections at the beginning of construction site planning.

#### **Your range of responsibility**

- Independent project management and the organization of exciting projects
- Management of employees and subcontractors
- Material planning and the control of workflows
- Creation of measurements, as well as audit documents
- Construction site instruction and coordination

#### **Your requirements:**

- Lateral entrants with appropriate experience or
- A completed training as an electronics technician
- Safe use of MS Office
- Communication and teamwork skills
- Independent work, high self-initiative and Self-confident appearance
- Quality- and customer-oriented action
- Willingness to travel

#### **What to expect:**

- A young dedicated team
- Independent flexible working
- varied projects
- Participation in training programs
- Flat hierarchies and an open, modern corporate culture

#### **Interested?**

If you feel like making a change, just give us a call.
